

6.3 In der Stadt - Geradeaus

Eine Einladung

You have invited a German student to spend the December holiday vacation with your family. But you can't travel together so you will have to give instructions on how to get to your house. You may assume your guest has a car, or have him/her take public transportation. Naturally, if you live on another continent, travel could be a bit more difficult. Include landmarks/buildings your friend will see on the way to your house, but keep your directions simple and clear. Feel free to use the "du" form when addressing your friend.
